For 60 years, the Learning Disabilities Association of America has worked to create opportunities for success for individuals with learning disabilities through support, education, and advocacy.

This February, we’re continuing our legacy of providing support and resources to individuals with learning disabilities, their families, and educators at our 60th Annual International Conference in Las Vegas. We’ve gathered the top learning disability experts, educators, parents, and individuals with LD to share the latest research, strategies, and their lived experiences.

Attend Sessions Like:
- Reaching All Learners: Broadening Understanding of Culturally Responsive Assessment, Teaching & Support
- Supporting the Language and Literacy Needs of English Learners with Dyslexia
- Disrupting Ableism - Setting Inclusive Expectations for Success
- Just LD?: Putting the Spotlight on Conditions with High Co-morbidity with LD
- Stop, Collaborate and Listen! – A Classroom Teachers Connection Session

And More!
